NO. 5

OCEAN POND DRIPPINGS

Lt. Col. Chronisiak, Sub District Inspector, was a visitor in camp this week on his regular monthly inspection tour.

Lt. Cryer, Capt. Dickie, and Mr. John McNamara of Co. 2415, Mulberry, Fla. were the guests of the company over the weekend.

Kit Clark and Phil Noble have returned from the hospital and we are surely glad to have them back with us again.

Ernest King, truck driver of this company, enjoyed a trip to Miami, Fla. with the Sarasota Company.

Lt. Faison, our camp surgeon, is back again with us from a two week leave which was spent fishing on the coast.

The gathering of the 3,000 bu of pine cones for seed is well under way. This project is expected to continue until Oct. 15.

Heavy rains about the camp have necessitated the detailing of fifty men to install a system of drainage ditches to carry off much ground water.

A class in woodworking will soon be started by this company's Educational Department. The class will be under the instruction of an F.E.R.A. teacher in woodcraft.

Enrollee Henry Janowski has reported to Co. 453 in Sebring, Fla. to assume the duties of Co. clerk with that outfit.

George Davis, popular member of this company has secured a position as ticket agent for a bus company in Swainsborough, Ga.

Mr. Robert Harkness, U.S. Forester, has returned from Jacksonville, Fla. where he enjoyed a two weeks training period with members of the Fla. Nat. Guard

Homerville Whips Mulberry
Tucker shades Brown
in
— 7 — 2 WIN —

Last Saturday afternoon the teams representing Co. 1413 of Homerville, Ga. and 2415 Mulberry, Fla. met in the first game of the Semi-finals for the District Baseball Championship.

The game scheduled to be played on our diamond was transferred to the one at Co. 418 because the local lot was all but under water. Under the direction of Mr. D E Zimmerman our Athletic Officer with the aid of twenty men from Co. 418 the diamond was soon put in playing shape

The game was called for three o'clock but long before the starting time rooters for their respective teams filled the grand stand and the sidelines of the park. It was estimated by the Officials of game that there were about six (600) hundred spectators at the battle.

After the usual warming up exercises the Umpires and Batteries were announced by Mr. Zimmerman and the game got under way at the set time.

HOMERVILLE STARTES WITH BANG

Before the game and crowd had been allowed to become really settled the boys from Georgia had pushed four tallies across the plate and put the game on ice. These four counters added by two more in the fourth inning and another in the sixth the boys from the Peach state had the game in the bag. Throughout the first four innings Tucker the Georgia pitcher had the game well in hand but in the fifth stanza his wildness forced two of the vets across the plate and was relieved by Paulk their Capt. and third sacker. He pitched air tight ball from then on and the Vets had only one man go as far as the keystone sack. The boys of Georgia secured only four safe bingles off the pitching of the old Veteran by the name of Brown but these came with men in the position to score. 1413 made only one error during the game and the fact that they cut five men off at home

Editorial

ON PERSONAL HYGIENE BY OUR VISITING
SURGEON----- Chas. D. Mason
Major M.C.
33rd Surg. Hospital

A few ideas regarding general hygiene conditions are always worth writing about regardless of the fact that this kind of thing gets tiresome to the average person. The important thing is the things that each one of us may do to help himself.

Persistent and continuous bathing is not only necessary in care of the general cleanliness of the body from the standpoint of scent but is a large factor in preventing boils and abscesses.

Using a good grade of soap that will cleanse, it is necessary for a man to have a good bath every day, preferably with warm water. This not only removes sweat and dirt, but also any kind of germ that may be on the skin. Then should follow the donning of clean clothes. Lake water does not cleanse thoroughly; even with good soap. Putting on dirty clothes keeps the germs so that you may scratch them into the skin.

These clothes must be kept clean. Washing them with soap and water helps a great deal more.

This applies equally to the care of

the feet. Athletic foot (a ring worm) vegetable infection that may be prevented by cleanliness. Wear socks, boil them and frequently change them. This infection gets into the socks and shoes and we reinfect ourselves through them. The shoes, to prevent this, must then be sunned and treated with a solution of formaldehyde. It is hard to get it out of socks but much harder to get it out of the shoes.

Ring worm infection of the groin is very similar and requires very much the same care. By wearing the otherman's clothes or washing in the same "pot" without proper boiling helps to spread it.

These things can be cured by continual treatment, but it takes time and is unpleasant.

Vincent's Angina, or trench mouth, is much more difficult to cure. Not only is it painful but the after effects of the disease are a great deal more severe. Loss of teeth, arthritis or rheumatism, heart trouble and a multitude of others result from this. Care and cleanliness of the mouth and teeth together with the use of the individual drinking glass or cup is absolutely necessary. It spreads by drinking after someone who has the infection.

It can be cured, but you can not always cure the after effects. It takes a long time to effect the cure, with plenty of pain and the treatment extending over a long period of time. The infected person will help treat this by proper care of the mouth and the teeth after the start of the infection. So, he should go to the trouble to prevent the start of trench mouth.

OUR CAMP A YEAR AGO THIS WEEK

Captain R.E. Odell replaces Lt. Burnett as Commanding officer of the Company. Lt. Traxler, supply officer, is replaced by Lt. Moise.

Ralph Rutan, popular member of this company, dies in the Lake City Veteran's hospital of appendicitis.

The Ocean Pond landscaping project is well under way.

K.P. Baker was writing letters to Jean Harlow of Hollywood.

Luther Odom was the camp artist and was doing a funny section for the paper known as "Pee-wee".

Larry Kulp was the first sergeant of this company. Bud Fox was company clerk.

Capt. H. B. Dudley complimented the camp on the wonderful work done by the enrollees on the landscaping job.

CURIOUS FACTS

Bloodhounds do not always track down a person with their noses directly over the trail. With a strong wind blowing they will follow the trail, sometimes as far as 150 feet to the leeward.

More than 2,800 persons in about 60 countries are authorized to sign checks on the treasury of the United States.

Earthworms are capable of being taught. Recently a scientist did it by making a worm crawl down a passage with a right and a left exit. The right exit was wired for electricity and every time the worm turned to the right he received an electrical shock. In about a hundred tries the worm learned to turn to the left.

Many of the ministers of Scotland are paid according to the current price of barley. With the repeal of prohibition in the United States the price of barley rose. Consequently, the ministers' salaries rose with the price of barley. Preachers were directly benefited by the repeal of prohibition in the United States.

One pound of soy bean flour contains as much nourishment as 25 eggs.

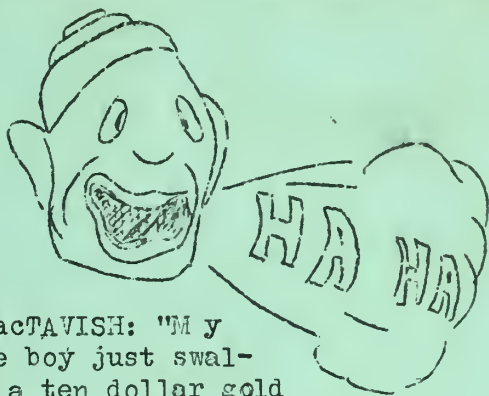

At one time Webster's Dictionary was banned from the state of Arkansas because it contained a definition of the word evolution.

Persons who are afflicted with day blindness, the inability to see as well in daylight as darkness, are far more numerous than those who suffer from night blindness, the inability to see after nightfall except under a strong artificial light.

Some primitive people exist today who are unable to differentiate between a dream and reality. For example, when a man dreams that he has been bitten by a snake, he treats the supposed wound upon awakening.

The chances of Congress overriding a presidential veto, based on the legislative history of this country, are one in fourteen. From 1789 to the present time, the Presidents have vetoed 630 bills, 48 of which eventually became laws.

(taken from Colliers magazines)

MRS. MacTAVISH: "My little boy just swallowed a ten dollar gold piece."

NEIGHBOR: "Gracious, is the child in danger?"

MRS. MacTAVISH: "No, thank goodness, his father's out of town."

OWENS: "Going hunting without any cartridges in your gun?"

FOX: "Yes, it is cheaper that way and the result is the same."

BIG MICHAEL: "Come, come, you shouldn't refuse to lend me money. One friend should always be willing to help another."

CORBITT: "I know it, but you will insist on always being the other."

"Yes, it was a case of love at first sight."

"Why didn't you marry him?"

"I saw him several times afterward."

FOX: "You are twenty minutes late again. Don't you ^{know} what time we start work around here?"

NEW RECRUIT: "No, they're always at it when I get here."

Bumpers---Those shiny metal things on the back of the car ahead, used by the driver behind in lieu of brakes.

DETROIT NEWS

OBITUARY

With a rose in his hand

Here lies John Glissen.

He made seventy an hour

Past a Stop, Look and Listen.

LITTLE BOY: "I forgot to ask you to my picnic tomorrow."

SECOND LITTLE BOY: "Too late now, I've prayed for a blizzard."

PAWLEY: "I think cruising on Lake Ocean Pond is the finest sport there is."

CAPTAIN BROOKS: "Nonsense! When you have once seen a wave, you have seen the lot."

STUDENT: "I have cast these figures eight times, Mam."

TEACHER: "Very good and thorough."

STUDENT: "Here are the eight answers."

FAMOUS LAST WORDS

"Give me that duck, you mug."

Good Men GuilloTined

By McDowall

George DAVIS in his new position as ticket agent will sell more tickets than any man in Georgia.

(baseball contd)

plate saved the game for them.

The Veterans put up an mighty fine stand and they should have won the ball had they been able to secure any of their eight safe hits in a row. Poor base running and fielding accounted a lot to the downfall of their team. Brown their 57 year old pitcher was by dar the best of the moundsman during the game but as we all know runs win the ball game not hits and errors.

The game was handled in the most efficient manner of any of the games that we have seen this season and most of this credit goes to the Umpires who are well known throughtout the state. John "Red" Davis of Lake City was Umpire in Chief, Frank "Stuffy" Stewart of Lake City acted as head Base Umpire and he was ably assisted by George Douglas of

Lake City.

Box score follows.
